**KASICH PRAISES LEGISLATURE FOR PASSAGE OF MONUMENTAL
ENERGY POLICY LEGISLATION**

COLUMBUS—Today Gov. John R. Kasich released the following statement in response to the General Assembly’s adoption of Ohio’s 21st Century Energy Policy, Senate Bill 315 (Jones):

“I’m so excited about what this legislation accomplishes and what it means for Ohio’s future. Starting with the Energy Summit last September, the passage of Ohio’s 21st Century Energy Policy has been a collaborative effort. Because we were able to come together and look at energy consumption and production from every angle—from shale gas to waste heat to workforce training to alternative fuels and renewables—we’ve accomplished something truly unprecedented. I applaud Sen. Jones, Rep. Stautberg and the entire General Assembly for reaching across the aisle to make this energy policy a priority. We’ll be better stewards of our environment because of it, and our kids and grandkids will thank us for it.”
